📍 3A, Welivita Road, Malabe

Profile

I am an Undergraduate student at Srilanka Institute of Information Technology (SLIIT) with robust problem-solving skills. Over the course of my studies, I have developed strong leadership skills, enjoy collaboration and teamwork and have good communication skills. I'm interested in learning more about new technology. In addition, I am the type of a person who would never pass up even a minor opportunity. As a result, whenever I get the opportunity, I will take advantage of it, and I will learn from my failures in order to improve my future successes.
